

# Sunny & The Heat

## Rock 'n Roll / Rock 'n Country from Northeast Wisconsin

Despite their verve and enthusiasm for vintage gear and rock nostalgia, Sunny & The Heat is decidedly devoted to traditional pop music. Playing live has always been their primary medium. Musically, they can pull off just about any style imaginable—rockabilly, funk, soul, country, rock or blues. Sunny & The Heat plays many straight top 40 covers, yet much of their homage to the greats lies in their chosen colorful harmonies and subtle chord structures. A band that must be seen live.
